## Professional Summary

Highly motivated Data Analyst skilled in Excel, Power BI, Python, and SQL for transforming data into actionable insights. Experienced in creating automated reports, building dashboards, and providing analytical insights to support data-driven decision-making. Seeking a Data Analyst role where I can leverage data visualization and problem-solving skills to enhance business performance

---

## Education

### Bachelor of Technology (B.Tech) - Information Technology

Inderprastha Engineering College | Aug 2019 - Jul 2023 | **80%**

### Senior Secondary School

Bal Bharati Public School | Apr 2018 - Mar 2019 | **73%**

### Secondary School

Bal Bharati Public School | Apr 2016 - Mar 2017 | **76%**

---

## Experience

### Analyst

Capgemini, Gurgaon | Mar 2024 - Present

- Prepare daily, weekly, and monthly performance reports using Excel and Power BI.
  - Monitor KPIs such as accuracy, productivity, and compliance to ensure quality performance.
  - Collaborating with Team Leads to identify performance gaps and recommend process improvements.
  - Automated report generation uses Power BI to improve efficiency and reduce manual effort.
  - Conducting data analysis and visualization.
  - Cleaning, processing, and transforming data to improve efficiency and accuracy.
  - Collaborating with cross-functional teams to develop data-driven solutions.
-

## Projects

### EV Market Analysis

- Performed end-to-end exploratory data analysis (EDA) on electric vehicle (EV) registration data using Python (Pandas, NumPy), Seaborn, and Matplotlib.
- Analyzed temporal trends, geographic distribution, and model-level adoption patterns.
- I identified Tesla as the leading EV manufacturer, with Model Y and Model 3 accounting for over 60% of top registrations.
- Visualized spatial concentration across King County and Seattle using bar plots and histograms.

### Amazon Sales Analysis

- Sales and profits are growing year-over-year, with December as the peak sales month.
- California leads in both sales and profit, while certain cities like Louisville need strategic attention.
- Tables and Phones are top earners, while Copiers deliver high profits despite lower volume.
- Some cities face shipping delays which might be affecting customer experience.
- Products like Binders and Paper sell the most in quantity, suggesting staple/recurring demand.

### Global GDP Analysis

- Consistent global GDP growth post-2020 recovery period.
  - India leads in GDP growth rate among major economies.
  - U.S. maintains global leadership in total GDP size.
  - Japan's negative forecast highlights potential demographic or productivity challenges.
  - Asia-Pacific region continues to drive global expansion trends.
  - Global growth stabilizes after 2025, suggesting a period of sustained but moderate economic progress.
- 

## Skills

### Technical Skills

- Power BI, Python, Microsoft Excel, SQL, Pandas, NumPy
-

## Certifications

- **Data Analytics Essentials** – Cisco (2024)
  - **SQL Basic** – HackerRank (2024)
  - **Power BI** – PwC Switzerland (2023)
  - **Excel Skills** – JPMorgan Chase & Co. (2023)
  - **Data Analytics Skill Up** – Geeks for Geeks (2025)
